

NEW JOB POSTING

Maintenance Person as Primary Position with "Other" Positions as Secondary

11-30-21

Redlands Water and Power Company

Grand Junction, CO

Become part of the Redlands Water and Power Company (RW&PC) team and tradition that was originally founded in 1905. This long-time company diverts water from the Gunnison River approximately 2.5 miles upstream from the Confluence of the Colorado River and supplies irrigation water to its Shareholders within the area of the Grand Valley known as the Redlands, servicing over 4,500 acres of land in the Redlands area of western Colorado. RW&PC is committed to our valued employees while delivering irrigation water and clean hydro-power electricity for a greener environment.

This position opportunity provides:

- Full-time position, 4 to 5-days a week, with some weekends and on-call obligations
- 40 hours per week, typical 7:00 am to 5:30 pm hours
- Starting wage is \$23.50 to \$27.00 per hour based on qualifications and experience
- All work performed in the Grand Junction area
- Medical Health insurance plan and HSA savings account after 2-months
- 401(k) Retirement Plan with 5% company match after 1/yr. and 1,000/hrs.
- 6-Paid Holidays observed plus 1-day employee choice
- Paid Vacation after 12-months

Applications and resumes will be accepted until the position is filled.

Applications and full Job Descriptions are available online at RW&PC's website at;

www.redlandswaterandpower.com on the home page in "Latest News Click Here", scroll down to "Maintenance Position" to find documents to download, fill in and return. Submit application and resume to info@redlandswpc.com with "Maintenance Position" in the subject title, or mail to; RW&PC Office: 2216 S. Broadway, Grand Junction, CO 81507. You may call (970)243-2173 Mon.-Thur. 7:00 am to 5:00 pm for information.

About this position:

- You would be working with an RW&PC staff that is currently comprised of three administration management personnel, two hydro-generation plant operators, and four to five ditch riders who serve as the backbone of this non-profit company. Each one is dedicated, reliable, and responsible for maintaining the water delivery systems professionally and courteously for our neighbors and community.
- The Maintenance Technician is responsible for a variety of semi-skilled and/or skilled tasks for the repair of pumps, equipment, trucks, electrical systems, and tools. Experience with plumbing, heating, air conditioning, welding & carpentry is also desired. It is a "hands-on" position. This position may also lead and supervise other maintenance personnel; assist, backs-up, and performs other duties and those position responsibilities such as "Ditch Rider" and "Power Plant Operator" as needed.
- This is a new position within RW&PC that will require many areas of skilled experience and knowledge from the right individual. It is expected for this individual to become familiar with the infrastructure within 12 months and understand the secondary positions in the same timeframe or less while getting trained on the job by senior staff.
- This position Reports to Superintendent/Manager, Assistant Manager, and/or Senior Power Plant Operator. This position may supervise full-time employees, temporary and/or contingency staff on an occasional basis.

Essential Job Functions: (partial list non-inclusive)

- Oversees, plans and schedules work assigned for maintenance by themselves and/or other employees to produce efficient and desired outcomes.
- Assists with the planning, preparation, training, and orientation of maintenance work for other maintenance team members.
- Inspects and/or repairs equipment at frequent intervals to ensure that all aspects of the mechanical systems, equipment, and infrastructures are safe and functioning properly; maintains a variety of records electronically.
- Extensive knowledge of hand tools and uses for; electrical repairs; equipment repairs, and automotive repairs. Plumbing, concrete, painting, carpentry, and small engine repairs are desired.
- Excellent analytical and problem-solving skills while becoming familiar with all RW&PC operations and facilities.
- Evaluate equipment or facilities to determine maintenance or repairs that need to be performed and perform those duties.
- Works with management to plan work priorities, obtain necessary supplies, and assess skills needed to complete tasks.
- Assesses systems, problems, and schedules to plan work assignments.

Requirements/Qualifications:

- High school diploma or equivalent with four or more years of progressive and practical. experience in at least one or more of the skilled trades previously described preferred.
- Minimum (5) years of relevant hands-on work and supervisory experience.
- Current valid Colorado Class R driver's license, Commercial driver's license (CDL) is preferred.
- Relevant professional trade certifications are desirable.
- The employee must be able to move about the work environment to diagnose building issues and plan repairs or maintenance. Must frequently move or re-position up to 50 pounds of materials or objects. Must be physically able to perform job duties when needed.
- A pre-employment assessment will be required.

Redlands Water and Power Company is an equal opportunity employer.
